

***"Before getting LASIK I had to worry about losing a contact at any moment especially in my sport. Now that I don't have to wear anything it takes a lot of stress off me during my competitions. I don't have blurry or dry contacts distracting me while I compete anymore. At Weir Laser Associates the procedure was very easy and fast and the people were great to work with. My life has been significantly improved by getting LASIK and I couldn't be more thankful."***

***Olympian, Jake Dalton***
